PRICE TEN CENTS

SOUND OUT NAVAL POWERS BOMB CAUSES FATALITIES

TWO DIE IN EXPLOSION OF BOMB ON U. S. SHIP

(By Associated Press)
WASHINGTON, D. C., May 31.—Three officers and eight enlisted men of the army air service were injured, some seriously, by the explosion of a bomb which was being placed aboard a vessel at Aberdeen, Maryland. The bomb was being used by the army air service in connection with tests preliminary to the joint bombing experiments to be carried out off the Virginia capes in June and July by the army and navy.

(By Associated Press)
WASHINGTON, D. C., May 31.—Two enlisted men were killed outright, two officers and another enlisted man injured perhaps fatally and nine others, including an officer, were hurt in the explosion of a bomb in an airplane at Aberdeen, Maryland, proving grounds, according to latest reports to the war department.

(By Associated Press)
BALTIMORE, Md., May 31.—The bomb which exploded at the Aberdeen proving grounds was being taken up in an airplane when the accident occurred, an officer said over the telephone. As the machine started to ascend the bomb fell from its fastenings.

D. S. DICKERSON LOSES HIS NEW PRISON POST

(By Associated Press)
WASHINGTON, D. C., May 31.—Abolition of the office of general manager of the Prisoners' Relief society, held by Denver S. Dickerson of Nevada, former superintendent of federal prisons, was announced today by Chairman J. L. Bowles, of the society's board of directors.

BAN TOBACCO USE BY SCHOOL TEACHERS

(By Associated Press)
LONG BEACH, Cal., May 31.—Teachers employed in the Long Beach public schools who use tobacco, either on or off duty, must sign the pledge to stop using the weed. The board of education has ruled. Dismissal may follow refusal to comply. The action followed a campaign waged against tobacco by the No-Tobacco League, which some time ago suggested that the board dismiss teachers who are smokers.

The South Carolina congressman who made an attack in the house on Ambassador Harvey was no doubt well aware that the latter was 3900 miles away.

NEW NOTE SENT TO HOLLAND ON ITS OIL POLICY

(By Associated Press)
WASHINGTON, D. C., May 31.—Exception to the assertions of the Netherlands government that the United States entered its protest against the Dutch policy in the Djambi oil fields came too late to affect the operation of that policy, is taken by the American government in a new note which it was announced had been sent to The Hague.

TEXAS IS SCORED AS LAND HOG IN BRIEF

(By Associated Press)
WASHINGTON, D. C., May 31.—The state of Texas is attacked as a would-be "land grabber" in a brief filed in the supreme court today by Frank W. Clancy, counsel for New Mexico, in an original suit by that state against Texas to obtain an official delimitation of the interstate boundary along the Rio Grande river. Declaring that the present claim of Texas would put the Rio Grande on rocky bluffs or sand hills, far above any possible bed of the river, the brief called the attention of the court to what was described as the "predatory and unscrupulous character of the defendant Texas" in land matters.

STUDENTS NOW WORK DURING THE SUMMER

(By Associated Press)
HARTFORD, Conn., May 31.—The college student of tradition, who spent his summer holidays idling on the verandas of the summer hotels or supported by his father on the farm or in the country homes has become rare these days. All the students of Trinity college here, with the exception of 19 men, have made their plans to work during their summer vacations. These figures are given out by N. L. Hersey, director of the student employment bureau. Some of the methods by which Trinity men will earn their own money this summer will be by working as riding instructors, hotel "bell hops," bakers, chauffeurs, stewards on ships, reporters and in banks and insurance offices. Some will go back to the farm to work, not to loaf, they say; while others will try tutoring, selling and engineering. Several will have recourse to book selling as did their fathers. There is plenty of work for students if they are willing to sell peanuts, soap, hair cutters, maps, underwear and limited editions, says the director.

**UNIQUE STORE WILL
HAVE NEW QUARTERS**
The Unique, Tonopah's popular store, is announcing a removal sale and special prices on ladies' suits and other articles of wear are announced. The store is to be moved next door to the south to the room formerly occupied by the hard tailors shop.

MUCH LAND INUNDATED BY BREAK OF BIG DAM

(By Associated Press)
WOODLAND, Wash., May 31.—Flood waters of the Columbia river, which broke through a 75-foot dyke six miles north of here last night, are spreading today, after having flooded nearly 5000 acres of land to a depth of from eight to 10 feet. No loss of life is reported, as warning had been given to all residents. The damage, chiefly to the crops, was estimated at from \$200,000 to \$500,000.

WHEAT TAKES UPWARD SWING ON BIG DEMAND

(By Associated Press)
CHICAGO, May 31.—Wheat for May delivery made a sensational upward swing in price today as a result of demand from shorts who had waited until the last of the month before fulfilling contracts. Little was for sale, and the market ran up 1 1/4 cents a bushel to \$1.82 compared with Saturday's finish.

ANTI-SOVIETS ARE SPREADING OUT IN SIBERIA

(By Associated Press)
TOKIO, May 31.—The anti-bolshevik leaders who have established a new Vladivostok government have extended their authority to the northwestward, being in control of the cities of Spassk and Grodekovo, says an official report received here today. A majority of the commissars and higher clerks employed in the railroads in the southern part of the maritime province have either fled or have been arrested, but the railroads continue in operation.

HUGE ELECTRIC DEVELOPMENT TO BE UNFOLDED

(By Associated Press)
CHICAGO, May 31.—Plans for the launching of a gigantic electric light and power development program, nationwide in scope, will be unfolded at the forty-fourth annual convention of the National Electric Light association to be held here beginning today and lasting until June 3. Development plans will be discussed which call for the extension of the industry and the expenditure of millions of dollars for the purpose of extending the service of electrical energy to American industry. Electrification of Alaska, Colorado, national waterpower development, which means the connecting of the electric resources of the nation into powerful distributing systems and scores of other subjects will occupy the attention of the delegates during the four days' session.

STRIKERS TURN AWAY PAPER MILL OFFICIALS

(By Associated Press)
GREEN BAY, Wis., May 31.—All officials, office employees and strike-breakers employed at the Northern Paper Mills were turned away today when they sought to gain entrance to the mill, by over 1000 strikers doing picket duty at the mills, according to Louis Allard, local president of the Paper Makers' union.

(By Associated Press)
MADISON, Wis., May 31.—A request was made of Governor Blaine by the sheriff of Brown county for the immediate dispatch of troops to Green Bay to quell the disturbances said to have grown out of the strike of three paper mills there.

4 KILLED IN AMBUSH OF TROOPS BY IRISH

(By Associated Press)
CORK, Ireland, May 31.—Four soldiers were killed, two were mortally wounded and 12 slightly wounded when they were attacked while marching from Youghal barracks to the rifle range. Near the golf links the road had been mined and an intense fire was opened on the soldiers. Bombs also were used. The injured soldiers replied to the fire. A curate who was driving to celebrate mass got into the line of fire and was wounded. His driver was killed.

ALASKAN CHIEF QUITS JOB TO BE U. S. CITIZEN

(By Associated Press)
SITKA, Alaska, May 31.—Jackson Anna-Hoota, traditional chief of Alaskan natives, on April 15 took the solemn oath from the yard of his home here, declared he no longer will follow the customs of his forefathers and announced that in the future he will be a plain American citizen. A former declaration was issued early in April by the old chief. "On April 15, 1921, according to my own convictions, I desire to take down my tribal emblems, which are in front of my house. My purpose is to live as an American citizen. I wish every young man to see that I have started now in a new life as an American citizen. I have dropped all my old customs as I think they were a great burden to me."

AIRPLANES SCARE AWAY SEAGULLS

(By Associated Press)
VENICE, Cal., May 31.—Airplanes have frightened away the many seagulls which formerly were seen about the southern California beaches, according to E. H. Knott of Venice who has spent years studying the birds. "The gulls cannot get used to the great mechanical birds and have left for other parts," Knott declared recently.

EXONERATE PILOT FOR CRASH OF HIS PLANE

(By Associated Press)
WASHINGTON, D. C., May 31.—Lieutenant Stanley Ames, pilot of the army airplane that crashed near Morgantown, Maryland, on Saturday night, with the loss of seven lives, was exonerated from all blame in a formal report of a board of investigation, submitted to Major M. E. Scanlon, commandant at Bolling field. The accident, in the opinion of the board of three army aviation officers, was absolutely unavoidable, and was due entirely to a storm into which the plane ran while returning from Langley field, Virginia, to Washington.

An investigation by the inspector general of the army of the accident was ordered by Secretary Weeks with instructions that every angle be reviewed. The inquiry of the inspector general probably will be wide in its scope and will take cognizance of a statement by Captain Deloyev, an attaché at the French embassy, who rode in the wrecked plane from Washington to Langley field but declined to return in it, saying that he noticed on the way down at times a lack of balance and the ship at times was out of control of the pilot.

PUPILS STUDY SALESMANSHIP IN BIG STORES

(By Associated Press)
BOSTON, May 31.—Actual experience behind counters in the big department stores, selling ribbons, tying bundles, making change and doing the scores of other things that go to make up the daily routine of regular employees, will be afforded girls in the city high schools here under an arrangement just completed between school and store officials. Pupils will be sent to the stores as a part of the school course in salesmanship, spending alternate weeks in the stores and in school. During the weeks that they are working they will be paid \$10 or \$12, according to their experience, and at the end of the course will be given a permanent position if desired.

PLAN MANEUVERS FOR AIR FORCES

(By Associated Press)
SAN PEDRO, Cal., May 31.—An intensive program of summer and fall maneuvers for the air forces of the Pacific fleet is planned by Captain William A. Moffat, director of naval aviation, it was announced here recently. The maneuvers will include bombing tests, designed to measure the value of aircraft against naval vessels. Aircraft will be mobilized at all Pacific bases for the tests.

DRY MEASURE RECEIVES A VETO

(By Associated Press)
ADDISON, N.J., May 31.—Governor Blain today vetoed the Prohibition enforcement act as in conflict with the federal Volstead act, deeming it "indistinct and uncertain" and the anti-alcohol league lobby as "pernicious."

FLORIDA TO BE FUTURE VOTING PLACE OF BRYAN

(By Associated Press)
NEW YORK, May 31.—William Jennings Bryan will vote in Florida in the future. While here today he announced that his actual residence in that state would become his legal residence. He was influenced in making the change, he said, by the state of Mrs. Bryan's health, and in his new home he expected to concern himself as much as ever in public affairs.

GERMANS TO DISARM WHEN SURE OF PEACE

(By Associated Press)
BERGHEIM, Upper Silesia, May 31.—German defense organizations here and in other towns west of the Oder river will disarm and disarm themselves as indicated authority has been established in Upper Silesia, said General von Hofer, the commander of German guards of this city. The general added that the allies would be thankful that the Germans had organized these men and maintained order instead of trying to disarm and disband the defense troops at this critical time.

MOORISH TRIBES WILL FIGHT FOR INDEPENDENCE

(By Associated Press)
TETUAN, Morocco, May 31.—Two of the Moorish tribes who are fighting the Spaniards seem determined to fight to the death for their independence. They are the Bocoys and the Beni-Urriaguels. The Bocoys are the most numerous, every man being a warrior and a fearless fatalist. The Beni-Urriaguels have been engaged in most of the rebellions against Spanish rule in Morocco which have taken place in the vicinity of Alhucemas. The latter tribe is well supplied with arms, munitions and money, for they have evaded all the vigilance of the Spanish coastguard vessels and have been carrying on an active trade with British and French blockade runners in wool, silk, wax, skins, eggs and almonds. Even when the sultan was supreme in Morocco, his forces were never able to dominate these two tribes, who had their refuges in the almost inaccessible fastnesses in the vicinity of Alhucemas and Penon, from which they still harry the Spanish troops.

OUTSIDE AUTOS ARE REPORTED STOLEN

The chief of police of St. Lake City has made request of Chief of Police W. R. Cochran to be on the lookout for three stolen cars. One is a Pan touring car bearing the license number 21,285, while the other two are Ford touring cars, 1921 model, bearing license numbers 25,642 and 27,367 respectively. All three were stolen during the week ending May 28.

FEELERS SENT OUT BY U. S. ON ARMAMENT

(By Associated Press)
WASHINGTON, D. C., May 31.—"Informal feelers" regarding the international agreement for reduction of armaments already have been put out by the American government, it was learned in high administration quarters today. The purpose, it is understood, was to develop the attitude of foreign governments on the question before any formal negotiations were undertaken. Approaches already made are understood to have been conveyed through American representatives sitting informally in the armed council. The process is expected here to be slow, one general belief being held that the "informal feelers" will be the only direct action taken now by President Harding in response to the Rortol amendment to the naval appropriation bill requesting the chief executive to begin negotiations for a disarmament agreement.

WASHINGTON HAS YOUNG GOVERNOR

(By Associated Press)
CHAMPLAIN, Wash., May 31.—Washington state government was held up in its progress, by the youngest man who ever sat in the governor's chair here, assuming when Lieutenant Governor Wallace J. Coyne followed Governor Louis F. Hart for three weeks. Coyne is 33 years old and during the time he occupied the governor's chair, it is thought, he was the youngest man holding executive power in any of the states.

CARLOAD PORTABLE HOUSES RECEIVED

The Belmont company this morning received a carload of portable houses that were shipped from San Francisco. The houses will be put together on ground owned by the company and will be for the use of employees at the mines.

A New York grand jury now holds that a wife may make for her husband as much noise as he was accustomed to drink before the advent of prohibition. Some wives would be kept awfully busy.

BUTLER THEATRE

LAST TIME TODAY
OTIS SKINNER

America's foremost romantic actor in the play that is so knowledgeable to be the most noteworthy success.

"KISMET"
Edward Knoblock's master drama.

In ten thrilling reels.

Only one night show, starting at 7:30.
Lower Floor 50c; Balcony 25c.
